

Laksopan Ravindran

Software Engineer

+94 70 262 7291 — laksopan2001@gmail.com — laksopan.is-a.dev
linkedin.com/laksopan — github.com/Laksopan23 — Malabe, Sri Lanka

Profile

Software Engineering undergraduate with internship experience building and deploying full-stack applications using MERN, Next.js, Vue.js, Laravel, and Django. Skilled in developing responsive UI with Tailwind CSS, implementing RESTful APIs, and working with PostgreSQL, MongoDB, and Supabase. Experienced in deploying and maintaining applications across AWS, Hostinger, and Coolify, and collaborating effectively in agile and remote team environments.

Education

Sri Lanka Institute of Information Technology (SLIIT)

B.Sc. (Hons) in Information Technology

2022 – 2026

Malabe, Sri Lanka

Professional Experience

Software Engineer Intern (Remote)

Jun 2025 – Dec 2025

Remotechies

Sri Lanka

- Developed full-stack features using Next.js and Django, building REST APIs and integrating frontend components with backend services
- Implemented mobile workflows using Flutter and integrated PostgreSQL and Supabase for data storage and authentication
- Deployed and managed applications using Coolify, supporting container-based environments and production configuration
- Contributed through code reviews, Git-based collaboration, sprint planning, and daily standups in a remote team

Software Engineer Intern

Mar 2025 – Sep 2025

DGatewayIn

Malabe, Sri Lanka

- Built and maintained MERN stack modules with responsive UI using Tailwind CSS and reusable React components
- Integrated backend APIs and improved data flow, validation, and error handling across the application
- Deployed builds on AWS and Hostinger, managing environment variables, production updates, and release readiness
- Debugged and optimized existing codebases to improve performance, stability, and maintainability

Technical Projects

ProteqHer SOS Listener

Flutter, Dart, Machine Learning, TensorFlow Lite

- Developed an AI-integrated safety app featuring on-device sound classification for real-time distress detection
- Implemented automatic SOS triggers and location sharing based on detected urban distress signals

SkillZone

Spring Boot, React, MongoDB, OAuth2

- Built a social skill-sharing platform with secure Google OAuth2 authentication and real-time activity feeds
- Developed features for learning progress tracking and an automated notification system for engagement

EduInsight

Vue.js, Laravel, MySQL, OpenAI API

- Developed an enterprise-grade school management system with an integrated AI student assistant powered by OpenAI

- Implemented role-based access for five user types and reactive Vue.js components for real-time academic tracking

Appointment Booking System

React, Node.js, Express, MongoDB, Tailwind CSS

- Developed a full-stack booking platform with integrated calendar views and real-time availability tracking
- Optimized backend workflows for faster data retrieval and secure role-based scheduling

Resume Matcher AI

Python, SBERT, NLP, Streamlit

- Built an AI-based resume scoring tool combining semantic similarity and keyword matching using Sentence-BERT
- Developed a dashboard for result visualization and optimized the engine for high-accuracy domain matching

Brain Tumor Detection

Python, PyTorch, CNN, Jupyter

- Trained Convolutional Neural Network models for high-accuracy medical image classification from MRI scans
- Automated MRI data preprocessing and documented training progress through detailed evaluation metrics

Bakery Management

Java, MySQL

- Built a desktop application for managing bakery sales, inventory, and automated sales reporting
- Designed a user-friendly retail interface and optimized database schemas for revenue tracking

Technical Skills

- **Languages:** JavaScript, TypeScript, Python, Java, PHP, C/C++
- **Frontend:** Vue.js, React.js, Next.js, Tailwind CSS, HTML, CSS, Bootstrap, Flutter
- **Backend:** Laravel, Node.js (Express), Django, Django REST Framework, Spring Boot
- **Databases:** PostgreSQL, MongoDB, MySQL, Supabase
- **Cloud & Deployment:** AWS, Hostinger, Coolify
- **Tools & Practices:** Git, GitHub, REST APIs, JWT Authentication, Agile Development, Postman

Certifications

- Postman API Fundamentals Student Expert
- GenAI 101 with Pieces
- Python Programming – University of Moratuwa
- Front-End Web Development – University of Moratuwa
- Server-Side Web Programming – University of Moratuwa

Languages

- **Tamil:** Native
- **English:** Intermediate
- **Sinhala:** Intermediate
